**Subject:** West Valley South 122

Ms. Woodall,

Pursuant to our recent telephone conversation, I am sending you by mail a copy of the WESTCAPS' Strategic Plan for using Central Arizona Project Water in the West Salt River Valley. MWD tried to e-mail this document to you, however, the document was too large for our e-mail system. Although this is only one component of the Maricopa Water District's long-term plans for its Beardsley Canal and the associated land rights, the plan illustrates the critical role of the Beardsley Canal in sustainable regional water resource management in the West Salt River Valley, and why MWD must maintain flexibility and control of the corridor for utilization of its highest and most productive use.

Please don't hesitate to contact me if I can be of further assistance.

Jim Sweeney  
General Manager  
Maricopa Water District

Dear Chairman Woodall,

As property owners in the Sonoran Ridge Estates neighborhood, we wish to make you aware of our concerns regarding the siting of the planned A.P.S. power lines and associated substation.

We are in support of the proposed plan, which would position the new lines to the east of our community and preserve our cherished views of the White Tank Mountains. It is our understanding that a new substation is proposed to be built within one half mile of our community. Although we do not see positioning it one half mile away as being harmful to our neighborhood, we strongly oppose it being built any nearer to our homes. Given the large amount of vacant land available to build on, we would expect that a new substation would be not be sited any nearer to an existing neighborhood.

Yours truly,

*Gary Serke*

*Jeff Schuler*

*While the above describes an eastern  
concern a review of the proposal  
shows a site line .5 mile north of  
Olive Ave which will extend along the  
entire Northern boundary of Sonoran  
Ridge Estates together with a sub-station.  
No nearer please!*
